

- Project Detail
 - ☛ This program show and count the number of moves for tower of Hanoi problem
- Language
 - ☛ C
- Constrain
 - ☛ It works well for 7 disk on my system.
 - ☛ For more number of disk, disk may start overlapping each other due to that visualization get disturbed.
- Code modification required to run on your system
 - ☛ Need to update the path of BGI folder in initgraph(). In my case it is c:\bgi.
